

I am writing to urge to keep KLOV on the air. The possibility of losing this station to a LPFM is unthinkable. This would have a huge negative impact on our community with bringing in music with negative impact for our children to listen to. This station allows people to have clean, positive music to allow their children to listen to. KLOV has saved many people from dire situations through prayer and positive messages. I know it is a "religious" station, but consider the far reaching effects of not having a station of this caliber on the air. Our kids would lose the only station there is out there like this to listen to. I implore you to please not allow KLOV to go off the air. Thank you so much for your careful and thorough consideration of this matter.
